

Main Entrance Work Begins Wednesday, October 20th

HEADS UP: work will begin on the main entrance at 550 Old Post Road (Rte 22/172) on Wednesday, October 20th and is expected to take 3 weeks.

STAGE ONE: cutting up the sidewalk to be removed where the driveway will be. The sidewalk will be inaccessible during construction hours, 8AM to 4PM. There will be signage and the ability to cross the street safely for that short stretch of sidewalk. The sidewalk will be planked and opened for use at the end of each construction day.

We will provide additional updates on the work on the main entrance and its impact on pedestrians and drivers.

Many thanks for the community's support as we strive to meet its emergency services needs now and for the next century.
